

Fri 13

Before lunch:

- [ ] Kamila: I (Dijkstra, Vec2D glue code)
- [ ] Atharva: I (Map logic: implement all classes in the Tiles package; Vec2D, tile data classes, garbage drifting.)
- [ ] Aftab: I (Implement framework for system tests: cooperate with Atharva)
- [ ] Ghenadie: I (Implement the parser and validator for corporations (into accumulator))
- [ ] Mohammed: I (Implement Ships package logic: getTilesInFoV, data classes)
- [ ] Badr: I (Implement the parser and validator for scenarios (into accumulator))

After lunch:

- [ ] Kamila: I (framework for system tests)
- [ ] Atharva: I (Logger)
- [ ] Aftab: I (Implement Corporation's collectGarbage, refuelShips, unloadShips, helper methods).
- [ ] Ghenadie: I (Implement the parser and validator for map (into accumulator))
- [ ] Mohammed: I (Implement glue logic in Main, Simulation)
- [ ] Badr: I (Implement the parser and validator for scenarios (into accumulator))

Mon 16

Before lunch:

- [ ] Kamila: I (framework for system tests)
- [ ] Atharva: I (Map logic: implement all classes in the Tiles package; Vec2D, tile data classes, garbage drifting.)
- [ ] Aftab: I (Implement Corporation's collectGarbage, refuelShips, unloadShips, helper methods).
- [ ] Ghenadie: I (Implement the parser and validator for corporations (into accumulator))
- [ ] Mohammed: I (Implement Ships package logic: getTilesInFoV, data classes)
- [ ] Badr: I (Translation layer between accumulator and the overall class UML diagram.)

After lunch:

- [ ] Kamila: I (Events)
- [ ] Atharva: I (Map logic: implement all classes in the Tiles package; Vec2D, tile data classes, garbage drifting.)
- [ ] Aftab: T (Atharva's Map logic)
- [ ] Ghenadie: I (Implement the parser and validator for map (into accumulator))
- [ ] Mohammed: I (Implement glue logic in Main, Simulation)
- [ ] Badr: I (Translation layer between accumulator and the overall class UML diagram.)

Tue 17

Before lunch:

- [ ] Kamila: I (Corporation's moveShips)
- [ ] Atharva: T (Events)
- [ ] Aftab: I (Implement Corporation's collectGarbage, refuelShips, unloadShips, helper methods).
- [ ] Ghenadie: T (Dijkstra)
- [ ] Mohammed: I (Implement glue logic in Main, Simulation)
- [ ] Badr: T (parser and validator for corporations)

After lunch:

- [ ] Kamila: I (Tasks)
- [ ] Atharva: I (Implement framework for System Tests)
- [ ] Aftab: T (Ships package logic: getTilesInFoV, data classes)
- [ ] Ghenadie: T (parser and validator for scenarios)
- [ ] Mohammed: I (Implement glue logic in Main, Simulation)

- [ ] Badr: T (parser and validator for map)

Wed 18

Before lunch:

- [ ] Kamila: I (Corporation's moveShips)
- [ ] Atharva: T (Tasks)
- [ ] Aftab: T (Ships package logic: getTilesInFoV, data classes)
- [ ] Ghenadie: T (Translation layer between accumulator and the overall class

UML diagram.)

- [ ] Mohammed: T (Implement Corporation's moveShips)
- [ ] Badr: T (parser and validator for corporations)

After lunch:

- [ ] Kamila: I (Rewards)
- [ ] Atharva: T (Events, Tasks)
- [ ] Aftab: T (Atharva's Map logic)
- [ ] Ghenadie: T (parser and validator for scenarios)
- [ ] Mohammed: T (Implement Corporation's moveShips)
- [ ] Badr: T (parser and validator for map)

Thu 19

Before lunch:

- [ ] Kamila: T (Corporation's collectGarbage, refuelShips, unloadShips, helper methods)
- [ ] Atharva: T (Rewards)
- [ ] Aftab: I (framework for System Tests)
- [ ] Ghenadie: T (Translation layer between accumulator and the overall class

UML diagram.)

- [ ] Mohammed: I (Implement framework for System Tests)
- [ ] Badr: T (Implement remote parsing mutant tests)

After lunch:

- [ ] Kamila: I (framework for system tests)
- [ ] Atharva: T (Rewards)
- [ ] Aftab:
- [ ] Ghenadie: T (Implement remote parsing mutant tests)
- [ ] Mohammed: I (Implement framework for System Tests)
- [ ] Badr: T (Implement remote parsing mutant tests)

Fri 20

Before lunch:

- [ ] Kamila: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)
- [ ] Atharva: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)
- [ ] Aftab: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)
- [ ] Ghenadie: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)
- [ ] Mohammed: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)
- [ ] Badr: T (System tests, remote simulation mutant tests, finding/fixing bugs in own code)

After lunch:

- [ ] Kamila:
- [ ] Atharva:
- [ ] Aftab:
- [ ] Ghenadie:
- [ ] Mohammed:
- [ ] Badr:

Mon 23 and later: Finding and finding bugs, writing tests, etc.
